- f) The NRC in pursuant to the Guidelines may work in close coordination with Risk Management Committee (RMC) of the company to achieve effective alignment between compensation and risks.

 - Compensation components are aligned effectively with prudent risk taking to ensure that compensation is adjusted for all types of risk taking;
 - Compensation outcomes are symmetric with risk outcomes;
 - Specifically, for Directors, KMPs and Senior Management:
 - Compensation pay-outs are sensitive to the Time Horizon of the Risk.
 - The mix of cash and other forms of compensation will be consistent with risk alignment.
- b. NRC may revisit the principles basis industry and regulatory context, company context and emerging best practices from time to time.

B. Composition of Fixed Pay

- a. All the fixed items of compensation, including the perquisites and contributions towards superannuation/retiral benefits, may be treated as part of fixed pay;
- b. All perquisites that are reimbursable may also be included in the fixed pay so long as there are monetary ceilings on these reimbursements;
- c. Monetary equivalent of benefits of non-monetary nature (such as free furnished house, use of company car, etc.) may also be part of fixed pay.

C. Principles of Variable Pay

- a. **Composition of Variable Pay:**
Variable pay shall comprise of Share linked instruments or a mix of cash and share-linked instruments. It shall be ensured that the share-linked instruments are in conformity with relevant statutory provisions.
- b. **Proportion of Variable Pay:**

- The proportion of variable pay in total compensation needs to be commensurate with the role and prudent risk-taking profile of KMPs/senior management. At higher levels of responsibility, the proportion of variable pay needs to be higher.
- There should be proper balance between the cash and share-linked instruments in the variable pay in case the variable pay contains share linked instruments. The variable pay should be truly and effectively variable and can be reduced to zero based on performance at an individual, business-unit and company-wide level.
- In order to do so, performance measures and their relation to remuneration packages should be clearly defined at the beginning of the performance measurement period to ensure that the employees perceive the incentive mechanism.
- At present the Company has no share linked payments.

c. Deferral of variable pay:

For KMPs and Senior Management, not all the variable pay awarded after performance assessment may be paid immediately. Certain portion of variable pay, as recommended by the Committee and approved by the Board of the company, may be deferred to time horizon of the risks. d. Control and assurance function personnel:

KMPs and senior management engaged in financial control, risk management, compliance and internal audit may be compensated in a manner that is independent of the business areas they oversee and commensurate with their key role in the company. Accordingly, such personnel may have higher proportion of fixed compensation.
